

Men's College Basketball Tournament Pool Board

Rules & Ways To Win:

1. A total of 100 squares will be sold at a value of \$50/each, for a total pool fund of \$5,000. Pay-outs will be as posted in the table below. Results will be available at www.woodard24.com.
2. **HOW TO WIN:** This is very similar to Super Bowl Pools you may have been involved in over years past. You will receive the last number for a Winning Team and the last number for a Losing Team. In the entire college basketball tournament, from beginning to end, there will be 63 games. You will have a chance to win every game, so you could conceivably win more than once with the same numbers. Each round will be worth more money to the winner of each game.
3. As the squares are sold, a square on the 10 x 10 board will be randomly selected and labeled. Once all the squares are sold, the winning and losing numbers will be randomly drawn to fill out the board, assigning you your numbers.
4. All of the "play-off" rounds that determine the 16th seed in each bracket will not be included in this pool. Only the games/teams that make up the final 64 teams will be used.
5. Only the first 100 purchases will be accepted. All others will be denied and returned.

PAY-OUTS			
Round	# Of Games	Payout / Game	Total Pool Value
First Round	32	\$ 25	\$ 800
Second Round	16	\$ 50	\$ 800
